

Sumit Jadhav

Full-stack Developer

OBJECTIVE

Detail-oriented Full Stack Developer with expertise in Java Spring Boot, Angular, and AWS services, seeking to leverage strong technical and problem-solving skills to deliver scalable and efficient web applications in a growth-driven organization.

PROFILE

I am a Full Stack Developer with hands-on experience in designing, developing, and deploying web applications using Angular and Spring Boot. I have successfully deployed projects on AWS (EC2, S3, RDS). With strong proficiency in REST API development, cloud deployment, and version control (Git, GitHub), I am passionate about building dynamic, high-performance applications. I value collaboration, clean coding practices, and continuous learning to stay updated with emerging technologies.

PROFESSIONAL EXPERIENCE

Web Developer

Automonk Technologies Pvt. Ltd. — April 2025 – Present

- Developing Angular-based applications with integration to AWS services (S3, EC2, RDS).
- Implemented and maintained version control using Git and GitHub.
- Followed Agile methodology and SDLC practices for smooth project delivery.
- Worked on real-world problem-solving, cloud deployment, and dynamic UI/UX enhancements.

Full Stack Developer

Genius Infotech Pvt. Ltd. — August 2023 – Feb 2025

- Developed and maintained web applications using Angular and Spring Boot technologies.
- Designed and consumed RESTful APIs for seamless frontend-backend communication.
- Deployed applications on AWS EC2 instances and managed static files through AWS S3.
- Worked with MySQL and PostgreSQL databases for robust backend support.
- Participated actively in code reviews, debugging, and continuous improvements.

EDUCATION

Bachelor of Computer Science

MGM College of Computer Science and IT, Nanded

PROJECTS

E-Learning Platform

Individual Project | Jan 2024 – Present | Pune, India

- Developed a full-stack e-learning platform independently, focused on Admin, Instructor, and User Course Enrollment systems.
- Built using Angular (frontend) and Spring Boot (backend) for dynamic role-based functionality.
- Increased student engagement by 25% with real-time course tracking and notifications.
- Reduced course access time by 40% by optimizing backend API responses.
- Implemented secure authentication and authorization using JWT tokens, enhancing platform security.

Abacus LMS

Full-Stack Developer | Aug 2023 – Present | Pune, India

- Designed and developed a franchise-based Learning Management System for centralized student tracking.
- Improved student assessment processing speed by 50% through backend performance optimization.
- Integrated a secure and seamless payment gateway API, increasing enrollment rates by 20%.

SKILLS

Frontend: Angular, HTML5, CSS3, TypeScript, Bootstrap, Angular Material, PrimeNg, NG-ZORRO

Backend: Java, Spring Boot, RESTful APIs

Database: MySQL, PostgreSQL

Cloud Technologies: AWS EC2, S3, RDS, Hostinger

Version Control: Git, GitHub

Tools: Visual Studio Code, Eclipse, Spring Tool Suite (STS), Postman

Other Skills: REST API Development, Cloud Deployment, Agile Methodology, Application Security

CERTIFICATIONS

Full Stack Developer Certification — *Hefshine Software, Pune*
