

SUMIT JADHAV

Software Engineer

Sumitjadhav7387@gmail.com | +91-9673999289

SUMMARY:

I am a Software Engineer with 3.5 years of experience in building dynamic and scalable web applications. Proficient in Java, Spring Boot, Microservices, Angular, and RESTful APIs, with strong experience in MySQL and PostgreSQL. I focus on developing efficient, high-performance solutions and continuously improving my skills by staying updated with modern technologies and best practices.

SKILLS:

- **Programming Language:** Java
- **Technologies :** Spring Boot, RESTful Web Services, Microservices Architecture,
- **Database:** MySQL, PostgreSQL, Microsoft SQL Server.
- **Frontend:** Angular, Angular Material, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, PrimeNG, NgRx
- **Version Control:** Git, GitHub
- **Cloud :** AWS, Azure, Hostinger
- **Tools & IDEs:** Postman, Git Bash, Visual Studio Code, Spring Tool Suite (STS), Eclipse

WORK EXPERIENCE:

Software Engineer

Automonk Technologies

(Sept 2022 – Present)

- I have total 3.5 Years of experience at Automonk Technologies Pvt . Ltd.
- Developed and maintained web applications using Java and Spring Boot to ensure high performance and scalability.
- Implemented front-end interfaces using Angular, Angular Material, HTML, CSS, Bootstrap, and JavaScript, enhancing user experience.
- Designed and developed RESTful APIs using Spring bootCore and Web API to facilitate seamless integration with third-party services.
- Worked with MySQL and PostgreSQL for efficient data management and application support.

RELEVANT PROJECTS:

Project 1: Skills Assessments & Interview Preparation platform :

Duration: Aug 2025 - Present

Description:

Skills Assessment & Interview Preparation Platform is a full-stack web application that enables users to evaluate their technical skills through customizable exams and detailed performance analytics. The system includes role-based authentication (Admin/User), secure JWT login, dynamic exams creation, question management, analytics dashboard management.

Technologies used: Java, Spring Boot, REST API, Angular, MySQL, AWS.

Roles & Responsibilities:

- Implemented role-based authentication and authorization using Spring Security and JWT.
- Developed RESTful APIs for registration, login, exam creation, submission, and ticket management.
- Built dynamic custom exam module allowing users to select skills and number of questions.
- Developed question management with manual and Excel upload functionality.
- Designed admin analytics dashboard to track performance and trending skills.
- Implemented secure exam features including tab-switch and copy detection alerts.
- Created study material and ticket management modules with responsive UI using Angular.

Project 2: Wealth Vision Pro :

Duration: Mar 2023 – Feb 2024

Description:

Wealth Vision Pro is an advanced financial dashboard designed to offer users real-time visibility into their financial portfolios. By consolidating data from various sources, such as bank accounts, investment portfolios, and assets, it provides a user-friendly and visually engaging interface.

Technologies used: Java, Spring Boot, REST API, Angular, MySQL, AWS.

Roles & Responsibilities:

- Developed & integrated solutions to aggregate financial data from multiple sources, including bank accounts, investment platforms & assets using Java, Spring Boot, and MySQL to provide a unified dashboard view for users.
- Implemented real-time data updates to ensure up-to-date financial information using Spring Boot and MySQL.
- Utilized Spring Data JPA to design and manage database models for customer support ticketing, live chat, and knowledge base systems.
- Designed interactive charts, graphs & tables to visually represent financial data & trends using Angular.
-

EDUCATION:

B.C.S (Bachelor of Computer science) (2022)

MGM College of CS and IT Nanded.

CGPA – 7.9
